Mr. Myers
ROHNER GEHRIG & COMPANY
Cargo Building 80
Room 205
Kennedy International Airport
Jamaica 30, New York

Dear Mr. Myers:

Once again we have had failure of delivery of a package from Africa and this time it is quite clearly completely the fault of Rohner Gehrig & Company. I therefore do not intend to pay anything concerning your bill Reference #50-9299 as of 1/7, and I am returning your Invoice herewith. Furthermore, I am going to consult with our legal advisor to see if you would not be responsible for the loss of these fish so that damages might be recoverable.

In a nut shell, these fish arrived in Kennedy Airport on BOAC, Flight 505-683-765 on 12/31/64 on a normal business day in the middle of the week. These fish were not forwarded by you in accordance with your bill of lading, Number 16JFK-2933967 until the 4th of January. In other words, these fish sat in your Cargo building for four days. As a result of which two of the large specimens were dead on arrival in Denver.

Our Institute will no longer make use of your services, and I do not expect that you should receive any further shipments for us. I am very disappointed in the inadequate manner in which you have handled these shipments and have acted as our Agents.

Yours truly,

Henry Swan, M.D.
